SUBJECT INDEX (Vol. 16, 1993)

Abstracts, 43, 142, 174
Apple Macintosh computer, A medical illustration information management system for the, 15
Application of high-definition video systems in medicine, The, 62
Axial computed tomography, Facial reconstruction of a 3000-year-old Egyptian mummy using, 11

Cardiff School of Medical Photography, A Master of Science course at the, 117
Caricature in medicine, The role of, 165
Chair in medical illustration, 100
Compact disc technologies, Videodisc and, 85

Early days in the St. Mary's Medical School Photographic department: Part 2, 109
Editorial, 3, 51, 99, 147
Educational training programmes, The Health Sciences Consortium: innovator in, 72
Electronic photography: a new age of medical imaging?, 123
Equipment and Methods, 38, 94, 143, 182
Ethics, Viewpoint: Image manipulation and the question of, 130

Facial reconstruction of a 3500-year-old Egyptian mummy using axial computed tomography, 11
Film sources in medical history, 148
Fractal imaging technology, An introduction to, 163

Gallery, 2, 14, 50, 93, 98, 108, 132, 146, 170

Health Sciences Consortium: innovator in educational training programmes, The, 72
Human anatomy: diagnosis and surgical planning, Three-dimensional visualization of data on, 4

Illustrations from prisoner-of-war camps on the Japanese Thai–Burma Railway Project, 101
Image manipulation and the question of ethics, Viewpoint, 130
Infrared photography revisited, 158
Introduction to fractal imaging technology, An, 163

Japanese Thai–Burma Railway Project, Illustrations from prisoner-of-war camps on the, 101

Learning Materials, 36, 87, 135, 175
Letters, 184
Litigation – a role for the medical photographer? Photography for, 171

Macalister archive: records from the Queen's Hospital, Sidcup, 1917–1921, The, 76
Management of serial photographs in a small research project, The, 106
Master of Science course at the Cardiff School of Medical Photography, A, 117
Medical graphics, standards for, 56
Medical Illustration Data System, MIDS –, the, 22
Medical illustration information management system for the Apple Macintosh computer, A, 15
Medical illustration, Stereoscopic imaging and its role in, 66
Medical imaging?, Electronic photography: a new age of, 123
Medical history, Film sources in, 148
Medical photographer, Photography for litigation – a role for the?, 171
Medical photography, The therapeutic value of, 173
MIDS – the Medical Illustration Data System, 22
Murders in Rillington Place – a personal recollection, The, 149

Notices, 48, 96, 144, 189

Obituary, 52

Photographic department, Early days in the St. Mary's Medical School, Part 2, 109
Photographic department information management, Use of a modern relational database for, 19
Photography for litigation – a role for the medical photographer?, 171
Photography, The therapeutic value of medical, 173
Photography revisited, Infrared, 158

Records from the Queen's Hospital, Sidcup, 1917–1921, The Macalister archive, 76
Reports, 34, 53, 133
Reviews, 46, 95, 140, 185
Role of caricature in medicine, The, 165

Serial photographs, The management of, in a small research project, 106
Standards for medical graphics, 56
Stereoscopic imaging and its role in medical illustration, 66
Student Gallery, 24, 41, 70, 129
Survey of videodisc and interactive videodisc projects in North America: Part II, A, 25

Therapeutic value of medical photography, The, 173
Three-dimensional visualization of data on human anatomy: diagnosis and surgical planning, 4
Trust experience, The, 113

Use of a modern relational database for photographic department information management, 19

Videodisc and compact disc technologies, 85
Videodisc and interactive videodisc projects in North America: Part II, A survey of, 25
Video systems in medicine, The application of high-definition, 62
Viewpoint, 130, 171
